21st December, 1984

Dear Sir,

European Patent Application No. 82 301286.9
Your Ref: PM 1019
Our File: 24799

In accordance with your instructions of 8th November we have put in hand the registration of the patent in the various countries and have obtained translations of the claims into French and German.

The claims have now been filed at the Patent Office and the final fees paid, and our debit note is enclosed.

We also enclose a copy of the claims in French and German, which have drawn to our attention a typographical error in the formula in claim 1 as last filed. We have asked the Patent Office to correct this error before the granted patent is printed.

We also enclose a copy of a complete translation of the specification into French, which will be filed in the French and Swiss Patent Offices in due time. A translation of the complete specification into German is not necessary with the countries designated in this case.

Yours faithfully,

note & file
